Sit besides the windows,  
leave a space in heart for the mood in  
such sunshine  
and leisure. Maybe the romance is  
approaching quietly.  
The elegance of sunshine and the  
romance full of vital force  
are enough to draw my eyes.

## UPERIOR TEMPER AMENT

For modern people who have long been living in cities, the quick-step of cities makes them more eager to return to nature. When you get back to your home filled with elegant and tender countryside senses after a whole day's work, when you finely taste a glass of red wine that is fragrant and pleasing, the overwhelming fatigue suddenly disappear, the mind is immediately relaxed and amused. Then comes the comfort of heart and soul, and the wonderful memory of life comes to the brain gradually, and you begin enjoying the beautiful and pleasant gifts of the world.

## NATURE MARBLE

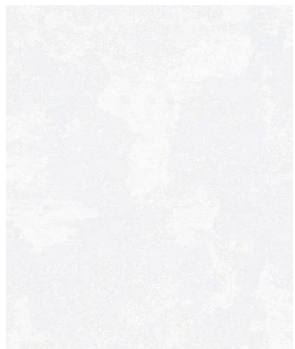

To pursue individual colors courageously, to feel the fashion trend without constrain, the space in big cities always uses furniture and ornaments to lead the trend, lighting up our eyes.

The background is a dense, repeating pattern of tropical foliage. It features large, dark green monstera leaves with prominent white veins and natural holes. Interspersed among these are various types of palm fronds, some in a lighter sage green and others in a darker forest green. The entire pattern is accented with thin, hand-drawn style gold outlines. A semi-transparent white rectangular box is centered over the pattern, containing the text 'CREATIVE DESIGN WALLPAPER'.
